

HOW TO WRITE YOUR OWN FUTURE OF FIXING CAPTION:

Work Title Goes here

Tell the story of the project. Describe it in a few words: what is it? What does it do and who are the people who made it? Why did you include it in your exhibition? Explain what's special about it. Is it the materials? The concept? The technique? The impact? Focus on what your visitors should remember. Simple language and short sentences help. Aim for 75 words or less - which is about this length.
